

Boiler Superheater Specifications

Description	Boiler superheater
Material	Alloy steel, Carbon steel etc.
Material standard	ASTM, EN or ISO etc. Structure Type
Tube	Coil
Dimension	Customization
Supply ability	1000 ton per month
Manufacturing process	Material→Ingot → Hot/Cold-Rolling→ Heat treatment (Normalizing+tempering) → Inspection →Bending tube→Assembly→Inspection → RT→Heat treatment (annealing)→Hydraulic pressure test→Painting→Packaging
Thermal Efficiency	Around 95%
