

Membrane Water Panel Specifications

Name	Membrane water panel
Material	Carbon steel, Alloy steel, etc.
Tube size	Φ38 - 76 mm, Customization
Standard	ISO , ASME
Model	Studded
Dimension	Customization
Manufacturing process	Material → Ingot → Hot/Cold-Rolling → Heat treatment (Normalizing + tempering) → Inspection → Polishing → Tube joint welding → Assembly → Welding → Inspection → Heat treatment → Hydraulic pressure test → Painting → Packaging
Installation location	Around the boiler combustion chamber
